DIARY NOTES

DD/S

19 June 1964

25X1A

1. At the Executive Committee Meeting this morning General Carter suggested that we caution all our people that the publication of the two books, The Bay of Pigs and The Invisible Government, does not in any way relieve our personnel of their secrecy obligations with regard to any matters which may be revealed in either of these two books.

2. General Carter telephoned to ensure that a film would be made of the President's presentation of the Distinguished Federal Civilian Service medals to Mr. Kirkpatrick and others on Monday, 22 June. In the course of our conversation General Carter said that the Agency would pay for the entire production if necessary. After talking to representatives of the Civil Service Commission, the Navy, and the White House, I am satisfied that this is now in train. (See my memorandum to General Carter.)

3. I talked with [REDACTED] about the [REDACTED] regulatory system and told him that I was going to send him a memorandum requesting that the [REDACTED] authorization to publish their own regulations be reviewed and the policy be reaffirmed so that there is no misunderstanding that these regulations and procedures must be consistent with Agency Regulations and procedures.

4. Howard Osborn reported that our guards arrested two Office of Communications employees who were testing agent gear in the parking lot yesterday--no problem.

5. Paul Chretien telephoned to inquire whether we owned 1016 16th Street; the Washington Post had inquired. I told Paul that the building was leased by GSA for our use and suggested that he refer the Washington Post to GSA.

6. [REDACTED] telephoned to report several items.

25X1A9a  
25X1A

a. He said that GSA had assured him that the [REDACTED] money could be obligated and that they were not concerned about disposal of the waste.

b. He also said that he was sending me a study which would show that it is more economical to turn off the lights at night than it is to leave them on.

c. Jim assured me that [REDACTED] the diesel operator at [REDACTED] would depart there on or about 10 July.

25X1A9a

7. John Clarke telephoned to say that he was recommending approval of the Xerox project and that he anticipated no difficulty. He also expressed a hope that I would approve of contemporary executive furnishings for super-grades.
